Welcome to BGIN Block #2

Virtual Paris/France
March 8, 2021

Opening Plenary

Welcome Remarks

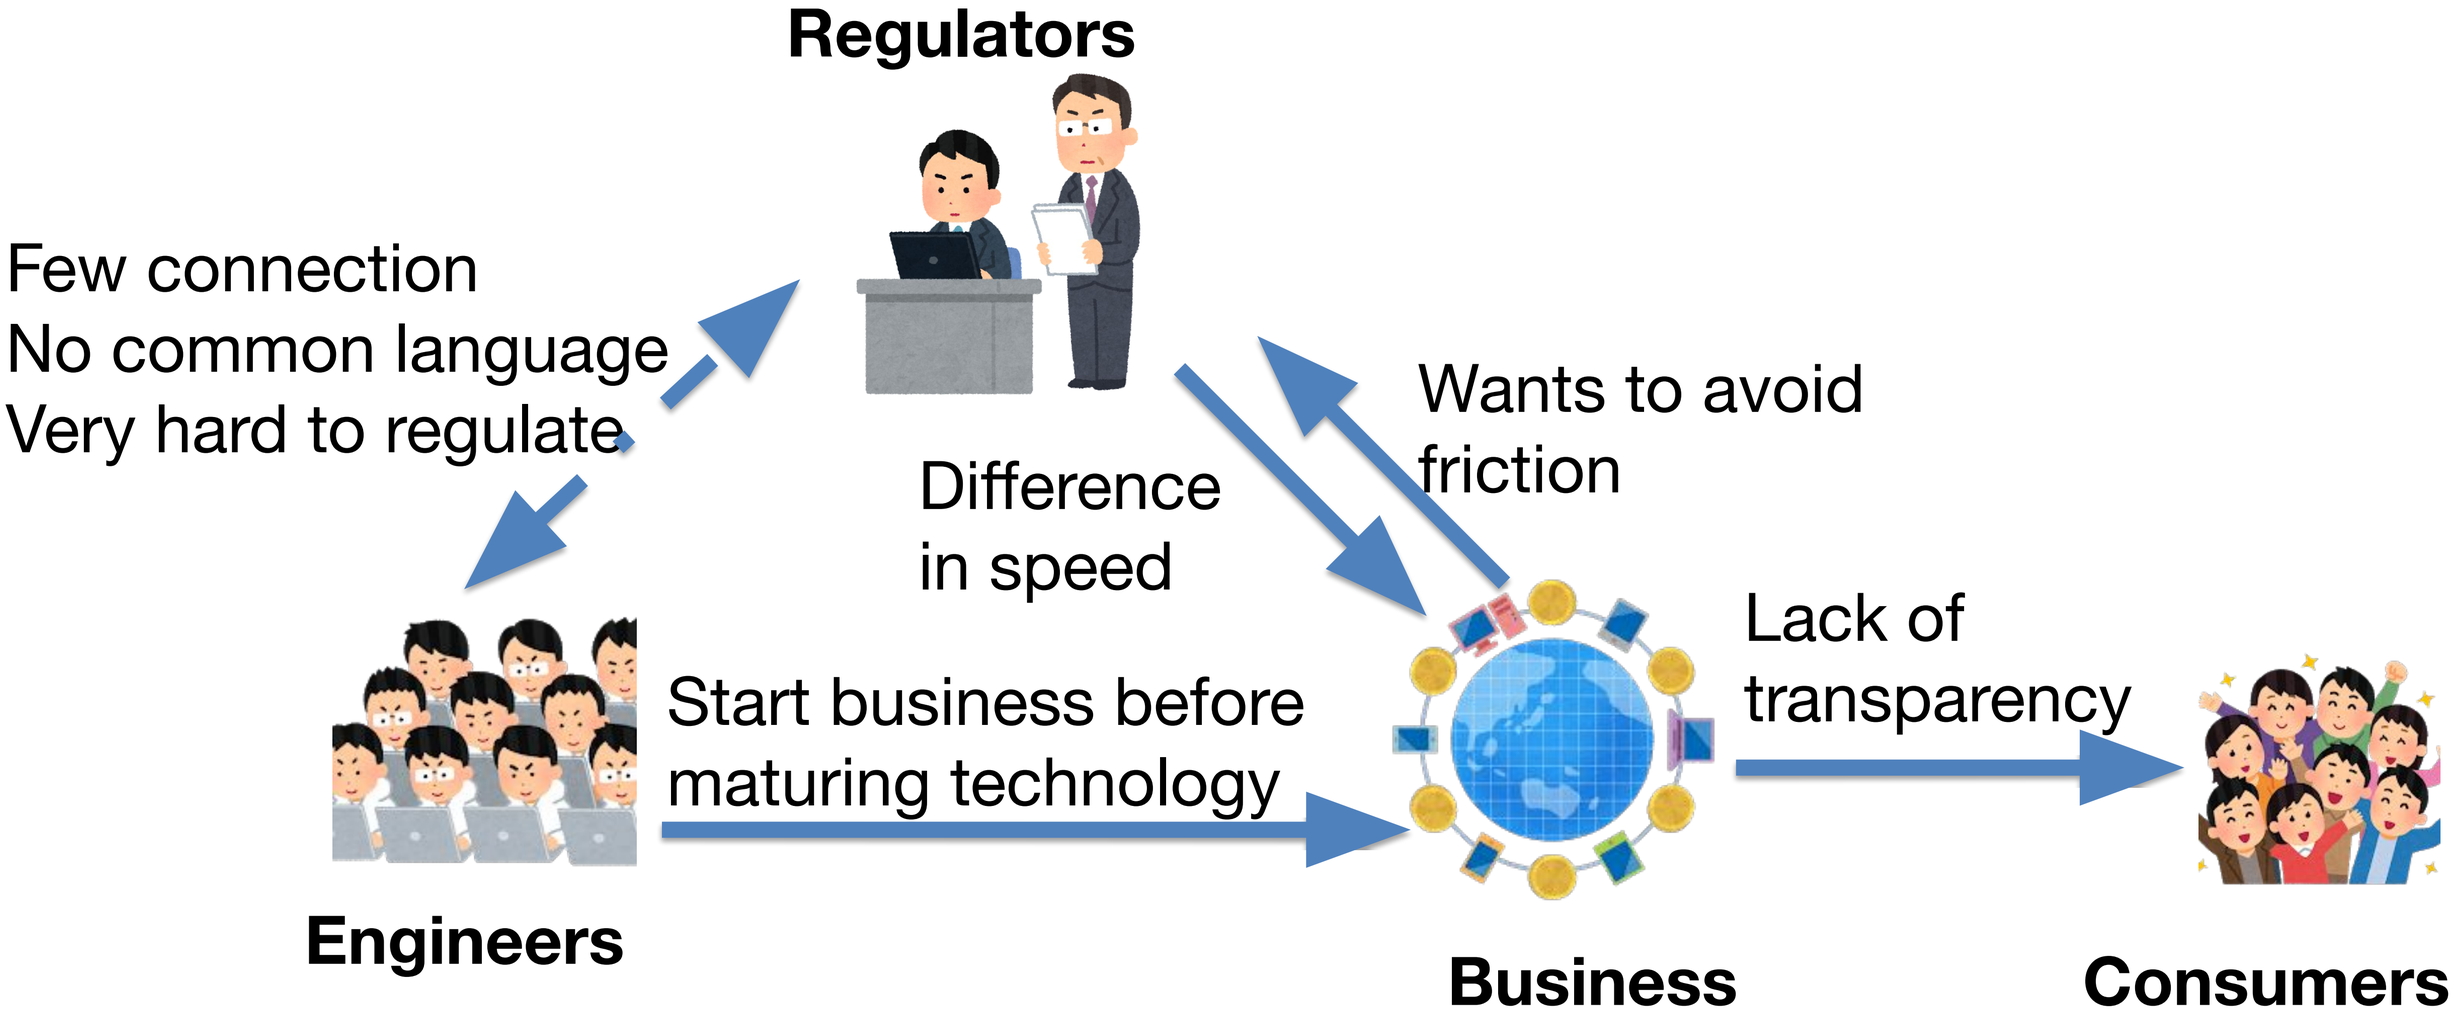
Julien Bringer (Local co-chair)

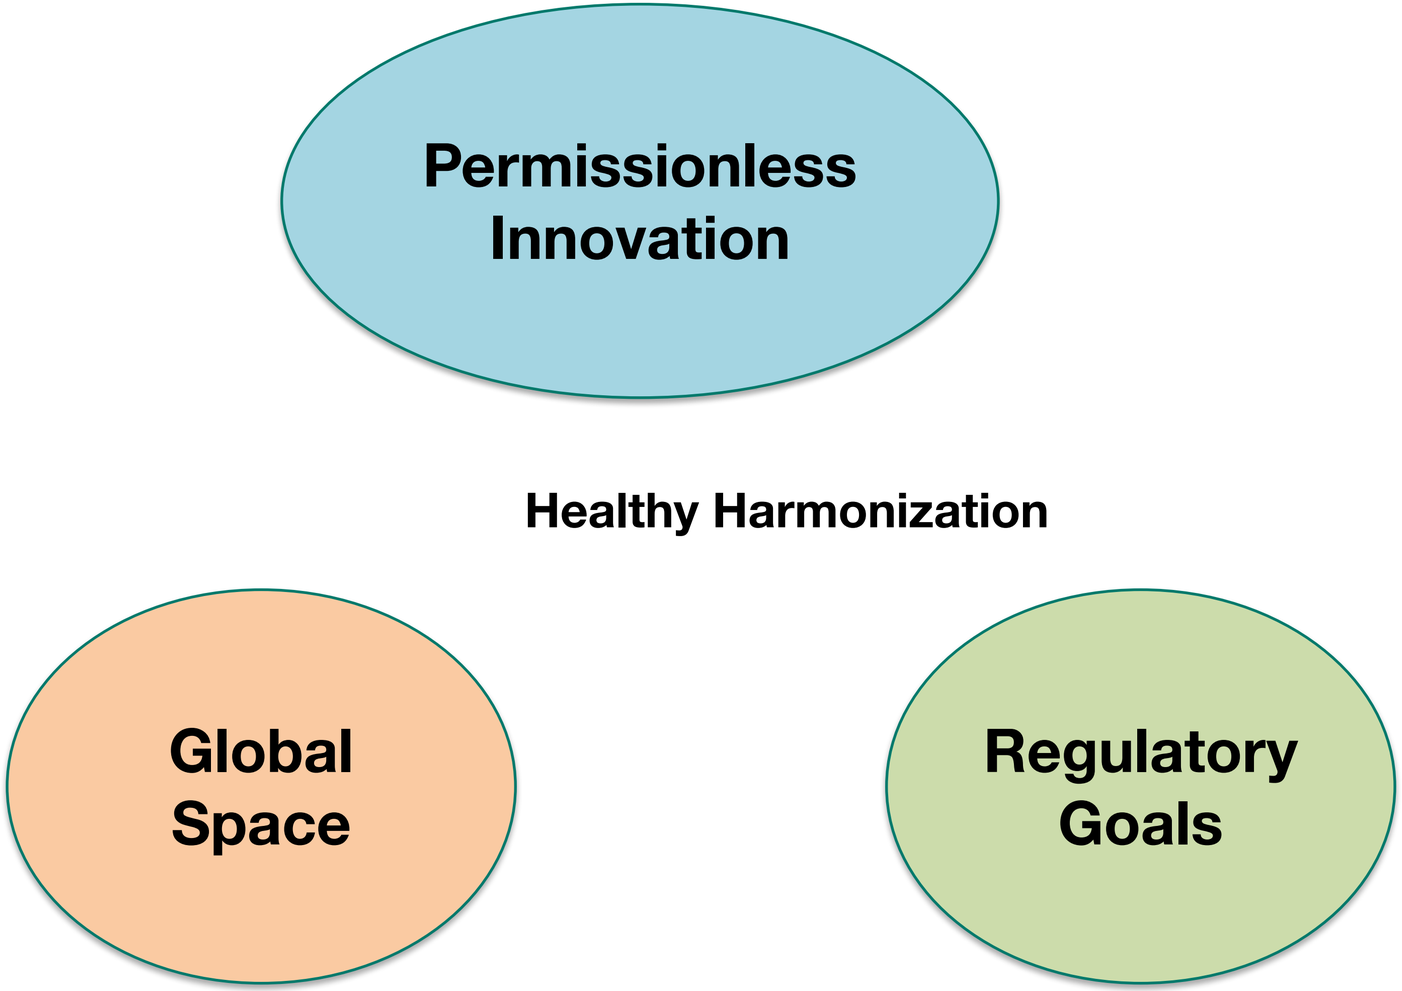
Opening Remarks

Mai Santamaria (Co-chair)

Introduction of BGIN

Stakeholders and the current situation





Permissionless Innovation
Healthy Harmonization
Global Space
Regulatory Goals

Better Conversation among regulators and Grass-root - Innovation Friendly Governance

Need to have better incentive designs among stakeholders

- Common place
- Common Language
- Harmonized incentive

Standard in the next era:

- **Criteria to have common understandings**
  - Lessons from the Internet: ISOC, IETF, ICANN, etc.

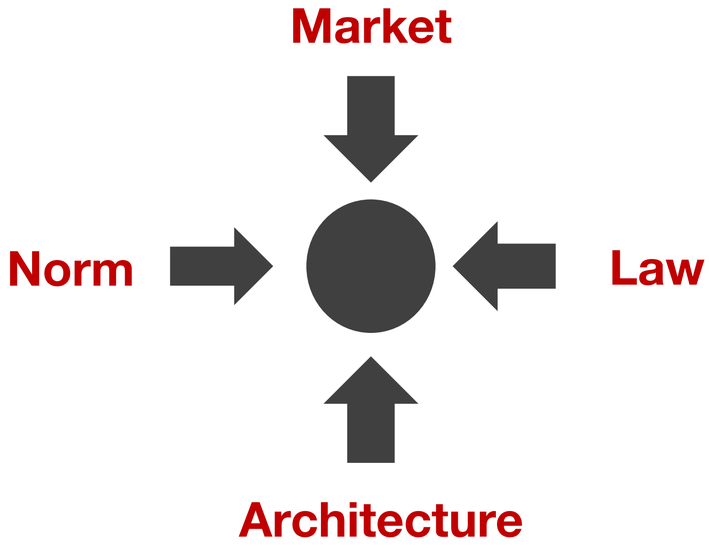
Internet Society

IETF

ICANN

Collaboration by Multi-stakeholders Implies Harmonization

- Common understandings on regulatory goals
- Code as (a part of) law and order
  - Joint works become preventive actions
- Blockchain and DLT needs multi-disciplinary discussions
  - CS, Cryptography, Network, Economics, Law, etc.



A resulting sentence in the communique of G20 2019 (the 13th paragraph)

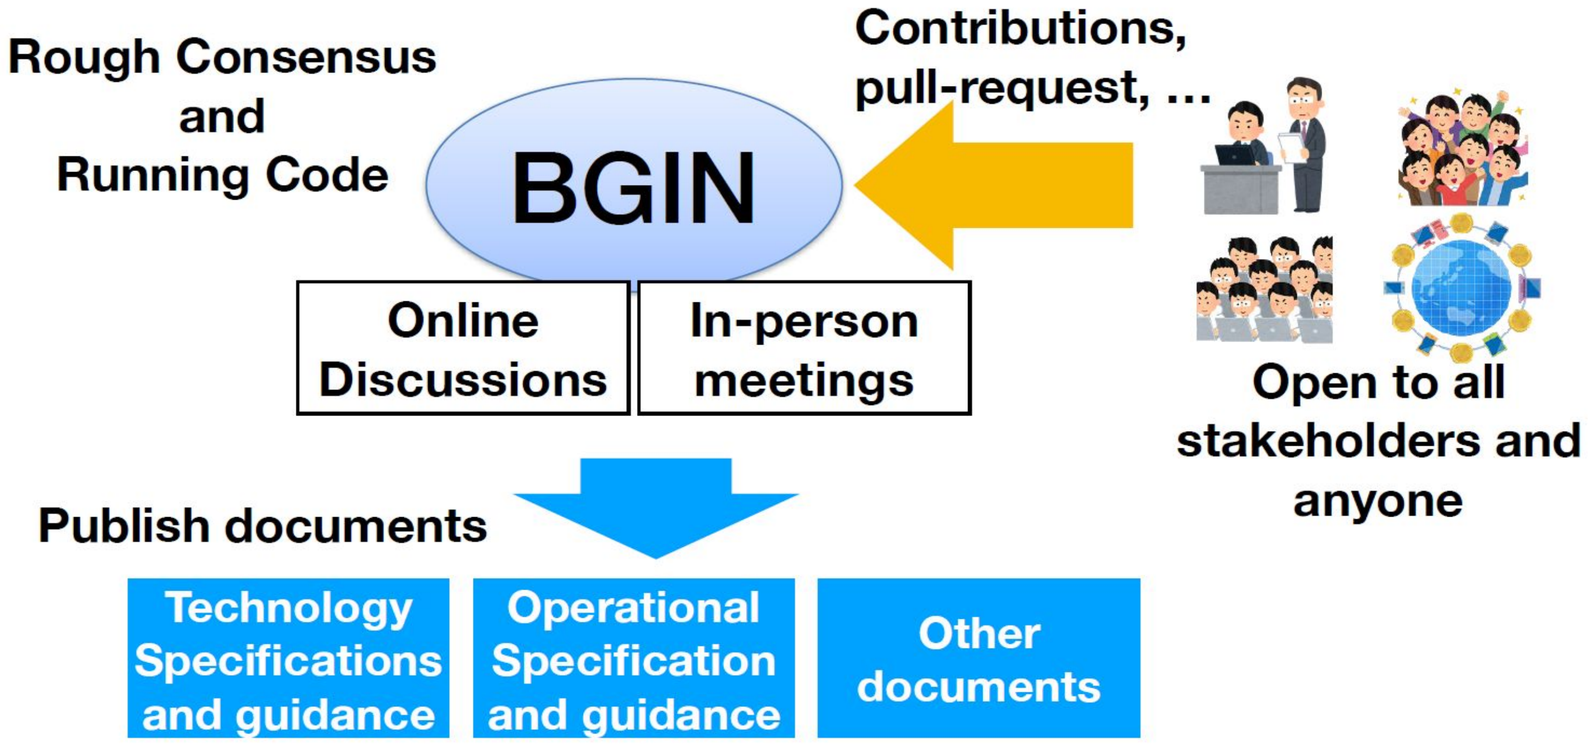
Technological innovations, including those underlying crypto-assets, can deliver significant benefits to the financial system and the broader economy. While crypto-assets do not pose a threat to global financial stability at this point, we remain vigilant to risks, including those related to consumer and investor protection, anti-money laundering (AML) and countering the financing of terrorism (CFT). We reaffirm our commitment to applying the recently amended FATF Standards to virtual assets and related providers for AML and CFT. We look forward to the adoption of the FATF Interpretive Note and Guidance by the FATF at its plenary later this month. We welcome IOSCO's work on crypto-asset trading platforms related to consumer and investor protection and market integrity. We welcome the FSB's directory of crypto-asset regulators, and its report on work underway, regulatory approaches and potential gaps relating to crypto-assets. We ask the FSB and standard setting bodies to monitor risks and consider work on additional multilateral responses as needed. **We also welcome the FSB report on decentralized financial technologies, and the possible implications for financial stability, regulation and governance, and how regulators can enhance the dialogue with a wider group of stakeholders.** We also continue to step up efforts to enhance cyber resilience, and welcome progress on the FSB's initiative to identify effective practices for response to and recovery from cyber incidents.

A Series of Multi-stakeholder workshops after G20

	Name of event	Location
June 13	G20 meets G-20	Vancouver, Canada
September 3	Fin/sum	Tokyo, Japan
September 8	Decentralized Finance Architecture	Tel Aviv, Israel
November 11	Security Standardization Research	London, UK
November 12	Multi-stakeholder Workshop for Financial Diversity	Dublin, Ireland
February 14, 2020	CoDeFi 2020	Kota Kinabaru, Malarysia
February18, 2020	CoDeFi Stanford (Stanford Blockchain Conference)	Palo Alto, USA
February 26, 2020	Workshop at Cardozo Law	New York, USA
March 9-10, 2020	BG2C	Tokyo, Japan
November, 2020	BGIN Block #1	Mumbai, India

Blockchain Governance Initiative Network (BGIN)

An open and neutral sphere for all stakeholders to deepen common understanding and to collaborate to address issues they face in order to attain sustainable development of the blockchain community.



https://bgin-global.org

Tentative goals:

1. **Creating an open, global and neutral platform for multi-stakeholder dialogue**
2. **Developing a common language and understandings among stakeholders with diverse perspectives**
3. **Building academic anchors through continuous provision of trustable documents and codes based on open source-style approach**

Key Activities

- Provides open, global, and neutral fora for discussion of issues that affect the development of the ecosystem in technical, business, regulatory, societal, and other contexts

GitHub repository / Mailing list / Zulip Chat

- Hosts regular, ad hoc meetings and events to enhance dialogue, cultivate common understanding, and promote cooperation among stakeholders

Host 3-4 in-person meeting in diversified location per year

- Actively outreaches to a variety of stakeholders and works together with affiliated organizations to foster well-balanced discussions

- Creates material outcomes that influence the way people design, use, and manage blockchain/DLT based on fair, academic and technology-driven discussions within Working Groups: Proceedings/Reference documents/Working papers with contribution from all stakeholders

- Contributes to public policy design and implementation through constructive communication with global standard-setters and jurisdictional regulatory, supervisory and enforcement authorities

Benefits for stakeholders

- Common understandings among stakeholders
- For developer
  - Jointly create regulation friendly technologies and codes
  - Provide influence to regulations
- For regulator
  - Understand technologies to solve regulatory issues
  - Create regulatory environment that balances innovation and social needs
- For business entity
  - Input business requirements
  - Obtain matured technology and codes agreed by regulators and engineers
- For user
  - Transparency of a service

BGIN Initial Contributors

- 23 experts with diverse backgrounds (Engineers, Regulators, Internet Pioneer, Academia, Business, Finance etc.)

Julien Bringer
CEO, Kallistech
Paris, France

Philip Martin
Chief Information Security Officer,
Coinbase Global Inc.

Danny Ryan
Ethereum Foundation

Shigeya Suzuki
Project Professor,
Graduate School of Media and Governance,
Keio University
Fujisawa, Japan

Brad Carr
Managing Director, Digital Finance,
Institute of International Finance
Washington D.C., US

Shin'ichiro Matsuo
Research Professor,
Georgetown University
Washington D.C., US

David Ripley
COO, Kraken
San Francisco, US

Yuta Takanashi
Deputy director, Office of International Affairs,
Financial Services Agency, JAPAN

Michèle Finck
Senior Research Fellow,
Max Planck Institute for Innovation and Competition
Munich, Bavaria, Germany

Jumpei Miwa
Director, Fintech and Innovation Office,
Financial Services Agency, JAPAN

Nat Sakimura
Chairman, OpenID Foundation
Tokyo, Japan

Robert Wardrop
Director,
Cambridge Centre for Alternative Finance
Cambridge, UK

Joaquin Garcia-Alfaro
Full Professor, Institut Mines-Télécom
/ Institut Polytechnique de Paris
Paris, France

Katharina Pistor
Professor, Columbia Law School
New York, US

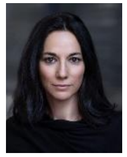
Kazue Sako
Trustee, Sovrin Foundation
Tokyo, Japan

Pindar Wong
Chairman, VeriFi (Hong Kong) Limited
Hong Kong, China

Byron Gibson
Program Manager,
Stanford Center for Blockchain Research
San Francisco, US

Nii Quaynor
Chairman, Ghana Dot Com Ltd
Accra, Ghana

Mai Santamaria
Head of Financial Advisory team (SFAD),
Department of Finance Ireland
Dublin, Ireland



Aaron Wright
Clinical Professor of Law,
Cardozo Law School
New York, US

Flora Li
Director, Huobi Blockchain Academy
Beijing, China

Jeremy Rubin
San Fransisco, US

Yuji Suga
Internet Initiative Japan Inc. / CGTF
Tokyo, Japan

8 month preparation

- Development of the governance of BGIN itself (Bootstrapping stage)
- Discussion on privacy/Identity/key management issues of blockchain-based financial transactions
- Outreaching engineers and various stakeholders to expand the community base and fill the gap between stakeholders

Establishment of BGIN (March 2020)

Co-Chair

Shin'ichiro Matsuo
Research Professor,
Georgetown University
Washington D.C., US

Mai Santamaria
Head of Financial Advisory team (SFAD),
Department of Finance Ireland
Dublin, Ireland

Governance WG

Co-Chair

Shigeya Suzuki Project Professor, Keio University

Aaron Wright
Clinical Professor of Law, Cardozo Law School

Privacy/Identity/Key management SG

Co-Chair

Nat Sakimura Chairman, OpenID Foundation

Katharina Pistor
Professor, Columbia Law School

Community Development

BGIN #1 meeting (November 23-25, 2020)

BGIN Block #1 (November 2020, virtual Mumbai)

- Setting up a common stage of multi-stakeholder discussion
- Establish organization and processes of multi-stakeholder discussions suitable for permissionless blockchain ecosystems
- Start with current essential issues on identity, privacy and key management
- Discuss future roadmap

Overview of Block #2

Main Goal of the Block #2

- Learn emerging issues on regulation and technology
- Discussion on governance of BGIN
- Discussion on current essential issues on identity, privacy and key management
- Discuss future roadmap

Plenary Sessions

- Opening plenary (Day 1, March 8, 13:00 - 14:00 UTC)
  - Introduction
  - Update of working groups
  - Report from steering committee
- Closing plenary (Day 3, March 10, 15:00 - 16:00 UTC)
  - Wrap up
  - Report back from working group / study group
  - Next step

WG/SG sessions

- Discuss documents under development
- Discuss future document development plan
- Governance WG (Day 2: March 9, 13:00 - 14:30 UTC)
- IKP WG (Day 2: March 9, 14:30 - 16:00 UTC)

BGIN Organization and Future Roadmap

- Day 3: March 14:00 - 15:00 UTC
- Road map and future topics
- Liaison/collaboration to other organizations and initiatives
- Administrative issues

Invited Talks

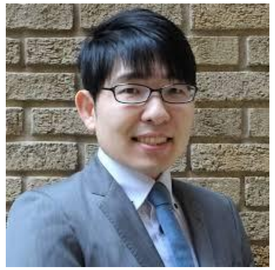
- Presentations from stakeholders to help understanding problems to solve
- Day 1 (Today, 14:00 - 15:00 UTC)
  - 14:00-14:20
    - James Angel, Georgetown University USA

  - 14:20-14:40
    - Jack Gavigan, Executive Director at the Zcash Foundation

  - 14:40-15:00
    - Frederic de Vaulx, Prometheus Computing LLC

Round table discussions

- **Recent crypto-assets/financial regulation on privacy and traceability/AML&KYC**
- Day 1, March 8, 15:00 - 16:00 UTC
  - 30 minutes discussion by main panelists
  - 30 minutes open discussion by all participants
- Moderator: Aaron J. Wright
- Main panelists
  - James Angel, Georgetown University USA
  - Jack Gavigan, Zcash Foundation
  - Ryosuke Ushida, JFSA
  - Frederic de Vaulx, Prometheus Computing LLC



Presentation from local blockchain community (Day 3: March 10, 13:00 - 14:00 UTC)

- **Jérôme de Tychey, Ledger & Ethereum France**

- **Pēteris Zilgalvis, Head of Unit, Digital Innovation and Blockchain, DG CONNECT, European Commission**

Unconference and social session

- Day 2 (March 9, UTC 16:00 - 17:00)
- Discuss specific topics

Organizing and program committee

- Julien Bringer (Co-chair, local)
- Joaquin Garcia-Alfaro (Co-chair, local)
- Shin’ichiro Matsuo (Co-chair)
- Nat Sakimura
- Mai Santamaria
- Robert Schwentker
- Shigeya Suzuki
- Ryosuke Ushida
- Aaron Wright
- Ayako Yamazaki

Acting co-chairs

Co-chairs of BGIN

Mai Santamaria

Shin’ichiro Matsuo

Co-chairs of Governance Working Group

Shigeya Suzuki

Aaron J Wright

Chairs of Identity, Privacy and Key Management Working Group

Nat Sakimura

Report from WGs and plan at Block #2

Report from tentative steering committee

Tentative steering committee

- Steering Committee will help entire BGIN community achieve its goal through the following activities;
  - Setting and periodic review of the Strategic Direction of BGIN Providing high-level roadmap to achieve goals through well defined outcomes.
  - General Meeting Planning taking into consideration of Strategic direction(Theme/location ect)
  - Programming Committee (PC) members are invited to the SC discussions as necessary for general meeting arrangement.
  - Developing community development plan and liaison strategy
  - Developing tentative funding policy
  - Other high-level planning that involves strategic considerations

Steering committee members

- Co-chairs
  - Mai Santamaria
  - Shin'ichiro Matsuo
- WG Co-chairs
  - Aaron J Wright
  - Shigeya Suzuki
  - Nat Sakimura
- Representatives from all stakeholders
  - Regulators / Governments
    - Yuta Takanashi, JFSA
    - Manoj Kumar Singh, RBI
  - Engineering community
    - Roman Danziger Pavlov, SafeStead Inc.
    - Jacek Czarnecki, (MakerDAO)
  - Businesses
    - Adrienne Allen, Coinbase
    - Samson Mow, Blockstream
  - Academia
    - Robert Wardrop, Cambridge
    - Joaquin Garcia Alfaro, Telecom Sud Paris
  - Standard-setters
    - Julien Bringer, TC307
    - Nii Quaynor

Steering committee 1st meeting

- Held on March 3, 2021
- Discussion items
  - Agree on chairs of Tentative Steering Committee
  - Decide Tentative Modality of Steering Committee
  - Discuss on Strategic Directions
  - Strategic Directions
- Future general meetings
  - Block #3: Washington DC/New York (June/July 2021)
  - Block #4: Africa (fall)

Enjoy BGIN Block #2
