IKP WG

**The IKP WG had two meetings this month and held discussions regarding the following key deliverables:**

- **GDC Conference Recap**:
The WG presented on *wallet governance and the Accountable Wallet framework*, emphasizing recovery, interoperability, and on-chain attestations. The group gained new collaborators, including Aira (under the Linux Foundation) and Along ID, who expressed interest in aligning with the framework.

- **New Proposal on AI-Agent Standardization Frameworks:**
The WG introduced a **modular AI agent architecture**—Archive, Codex, and Discourse agents—to support automated governance, compliance, and memory retention. The system integrates Accountable Wallet principles and supports on-chain trust networks.
Documents: A multi-part blog and concept paper will be shared on Discourse and GitHub.
Webinar to be held: A public webinar is planned for August 28 to present the framework and engage potential contributors ahead of Block #13.
Agent GovHack: upcoming initiative during Block #13 to prototype agent-based governance using AI. It aims to demonstrate how policy frameworks can be automated through a modular architecture agents.

August IKP WG Meeting Schedule

- **August 14th, Thursday: 12:00 UTC**
  - Preparation for upcoming AI Agent Integration Webinar
- **August 28th, Thursday, 12:00 UTC**
  - BGIN AI Agent Frameworks Webinar

FASE WG

The FASE WG has been on its summer break this month after publishing its *Policy Priorities for Stablecoin Regulation* paper.
This paper compares stablecoin regulations in the EU (MiCA) and UAE (VARA), focusing on shared priorities like reserve transparency, audits, and consumer protection. It examines how events such as the Terra-Luna and FTX collapses shaped policy responses and highlights emerging challenges, emphasizing the need for global coordination to ensure stable and well-regulated digital assets.

The WG will resume its bi-weekly meeting from August 27. *We encourage any interested people to contact us about joining the WG after the summer break is over.* Please contact the WG Chairs *Chloe White* or *Joseph Beverley*, make a post on our discourse, or shoot us an email to bgin_admin@bg2x.org.

August FASE WG Meeting Schedule

- WG Meeting **Resumes August 27th , Wednesday: 11:00 UTC**

Cyber Security WG

The Cyber Security WG is finalizing the **BGIN Cyber Security Information Sharing Standard**, targeting adoption at **BGIN Block #13 (Oct 15–17, Washington DC)**.
Key milestones include draft reviews in August, community feedback during **EDCON Layer 2 Meetup (Sept 16–17, Osaka)**, and final publication in October.
🚨 **Action Required:**
- **Attend BGIN Block 13** (mandatory)
- **Create a Discourse account** to join official standardization discussions
- Join the August WG call and provide feedback on the public draft

Upcoming BGIN Events

BGIN AI Agent Frameworks Webinar
(August 28, 12:00 UTC, @Online)
- The IKP Working Group will host a webinar ahead of EthTokyo, EDCON, and BGIN Block #13 to **introduce the integration of AI agents into BGIN's broader activities**—led by IKP WG Chair Mitchell Travers.
- Open to all, the session will cover key proposals, demo concepts, and ways to get involved.
- *Community members are highly encouraged to participate.*
- Aimed at both new and returning stakeholders, with a recording and materials available on Discourse for those unable to attend live.

Layer2 Meetup @ Tokyo/Osaka
Tokyo (Sept 15):
- Featuring *Privacy Pool & Accountable Wallet*
- Joint event with EthTokyo @Digital Garage, Shibuya
- Hybrid format

Osaka (Sept 16–17):
- Featuring *Cyber Security Info Sharing Framework* and possibly *Privacy Pool & Accountable Wallet*
- Part of EDCON series
- Hybrid format

BGIN Block #13 Conference
(October 15-17, @Washington, D.C.)
Primary forum for BGIN's multi-stakeholder discussions among developers, regulators, academics, and business entities.
- **The dates have been finalized, and the webpage is now live.** We welcome any feedback!
- Venue, proceedings, sponsors: TBD
- Key projects across all WGs will be featured
