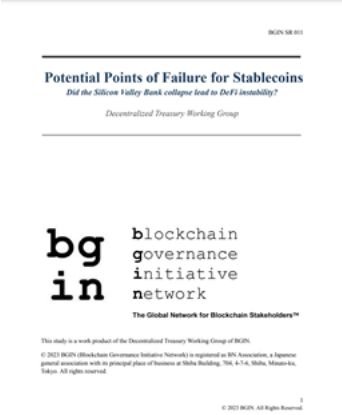
Utilizing BGIN's Network of Trusted Cybersecurity Experts

BGIN has created several documents related to cybersecurity in the blockchain and crypto space leveraging network with cybersecurity experts across the globe



Published

- Study Report for Ransomware Reaction
- Incident Response of Decentralized Custody; A Case Study
- Present and Future of a Decentralized Financial System and the Associated Regulatory Considerations
- NFT Study Report Part 1: Introduction and Use Cases]
- Soulbound Tokens (SBTs) Study Report Part 1: Building and Embracing a New Social Identity Layer?
- Proposal of Principles of DeFi Disclosure and Regulation
- Study Report on Selective Disclosure: Overview and Classifications
- Potential Points of Failure of Stablecoins and DeFi
